SUMMARY

Computer Science & Engineering graduate and Full-Stack MERN Developer with hands-on experience architecting scalable web applications, RESTful APIs, and intuitive user interfaces. Proficient in React.js, Node.js, Express.js, MongoDB, SQL, Java, and modern CSS frameworks like Tailwind. Strong background in database design, OOP principles, and machine learning integration, demonstrated through production-ready project deployments. Adept at bridging clean UI/UX design with robust backend systems to deliver secure, user-centric software solutions.

TECHNICAL SKILLS

- **Languages:** Java, JavaScript (ES6+), HTML5, CSS3, SQL
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures (Basic), CRUD Operations
- **Frameworks:** React JS, Node.js, Express.js, Tailwind CSS
- **Database:** MongoDB, SQL (MySQL / Relational Databases)
- **Web Technologies:** RESTful APIs, Responsive Design, React Hooks, JSX, DOM Manipulation
- **Tools:** Git, GitHub, VS Code, Vite, UI/UX Design, Wireframing, Prototyping

PROJECTS

VoteRight – Secure Voting Poll Platform

[Live Deployment \(Netlify\)](#)

- Developed a secure online voting platform using React JS, Express.js, Node.js, and Tailwind CSS with authentication and responsive user interfaces.
- Implemented user authentication, vote restrictions, and secure validation mechanisms to ensure a reliable voting process.
- Improved application usability through responsive web design and secure data handling practices.

Fake Recruitment Email Detection System

[GitHub Repository](#)

- Built a deep learning-based email detection system to identify fraudulent recruitment emails and phishing attempts.
- Implemented Natural Language Processing (NLP) and classification techniques to improve phishing email detection accuracy.
- Enhanced user safety by detecting suspicious recruitment emails using machine learning-based analysis.

SkillBridge – Skill Sharing Platform

[GitHub Repository](#)

- Developed the frontend of a skill-sharing platform using React.js, JavaScript, CSS3, and Vite.
- Designed responsive user interfaces with reusable React components and form validation.
- Implemented features for sharing skills, viewing available skills, and requesting help; integrating backend using Node.js, Express.js, MongoDB, and RESTful APIs.

EDUCATION

INFO Institute of Engineering

2022 – 2026

Bachelor of Engineering in Computer Science and Engineering

CGPA: 8.0/10.0 • 8th Semester SGPA: 8.43

TRAINING & INTERNSHIP EXPERIENCE

Besant Technologies, Chennai

MERN Stack and SQL Trainee

- Pursuing professional training in MERN Stack Development and SQL with hands-on project experience.
- Learning Java, Object-Oriented Programming (OOP), React JS, Node.js, Express.js, MongoDB, SQL, CRUD operations, and RESTful API development.

Litz Technologies, Coimbatore

UI/UX Design Intern

- Designed responsive and user-friendly interfaces using modern UI/UX principles.
- Created wireframes and interactive prototypes to improve application usability.

CERTIFICATIONS

- UI/UX Design Internship Certificate – *Litz Technologies*
- Hackathon Participation Certificate – *Secure Voting Poll Platform*
- International Conference Participation Certificate – *Fake Recruitment Email Detection System*
